Miss Clarke of Strathcona, who is in charge of MacLean's primary school, is meeting with favorable comment by parents in the management of her pupils.

"Quarantine" matters make a decided change in a locality, we find, but it seems that so far in the matter of quarantine in Northern Alberta the rules have been enforced more rigidly than to stamp out the disease entirely, although it no doubt has checked its rapid progress. Still if the quarantine still is not ample to religiously meet its purpose, it nevertheless does not seem to be better to let it stand, than quarantining and letting the disease take everything as it passes. Then at any rate it would die quickly for want of material upon which to prey.

TERRITORIAL POLITICS.

The Bulletin has received the following communication:

Who am I an independent?

Because I believe:

That a man is entitled, who being elected to a seat of trust, should from that trust, or allows others to.

Who being elected to carry out a reform, accepts office, unless to carry it out.

Who believing in equal justice being administered, does not do and dare his all to obtain it.

Believing in the above and knowing that to accept provincial autonomy, on any terms short of those received by Ontario, would be to ruin the people among whom I live, and that I should be unable to do my duty if I gave up my qualified support to either party, without getting justice or doing my best to, I ask the people in all parts of this country to hold meetings and to discuss the important question.

Union is strength,
